

Selected Questions — Unit 1 & Unit 2

DBMS + Computer Networks

Section A: DBMS Questions (5)

Code No. 2131 — Database Management System

[DBMS - 2131] Q1(a) Compare file system with database system. *(Unit 1)*

[DBMS - 2131] Q1(b) Explain database system architecture with neat diagram. *(Unit 1)*

[DBMS - 2131] Q1(c) What is an attribute? Explain different types of attributes. *(Unit 2)*

[DBMS - 2131] Q2(a) What is key in DBMS? Explain its type. *(Unit 2)*

[DBMS - 2131] Q3(a) Draw ER diagram for library management system. *(Unit 2)*

Section B: Computer Networks Questions (13)

Code No. 2233 — Computer Networks (Elective)

[CN - 2233] Q1(a) Discuss all network topologies with diagram. *(Unit 2)*

[CN - 2233] Q2(a) Discuss OSI Model with diagram. *(Unit 1)*

[CN - 2233] Q2(c) Explain the layers in TCP/IP protocol suite. *(Unit 1)*

[CN - 2233] Q3(a) Discuss the use of RJ45 and RJ11. *(Unit 2)*

[CN - 2233] Q3(c) Draw and explain the structure of Fiber Optics. *(Unit 2)*

[CN - 2233] Q5(b) Switching Techniques. *(Unit 2)*

Code No. 2187 — Data Communication and Computer Network

[CN - 2187] Q1(a) Explain difference between guided and unguided transmission. *(Unit 2)*

[CN - 2187] Q1(b) Define: (i) Bandwidth (ii) Bit rate. *(Unit 2)*

[CN - 2187] Q1(c) Explain half duplex and full duplex. *(Unit 2)*

[CN - 2187] Q3(a) Explain circuit switching techniques. *(Unit 2)*

[CN - 2187] Q3(b) Draw diagram of TCP/IP Model and explain. *(Unit 1)*

[CN - 2187] Q3(c) Explain OSI Model. *(Unit 1)*

[CN - 2187] Q5(c) Write notes on Wi-Fi network. *(Unit 2)*
